# Rector's Message

**Prof. Dzhumaev  
Ravshan Mamadievich**  
**RECTOR OSHIMU**

“We believe that the future of our country, region, and humanity will depend on well-educated people and strong leaders. Our Doctor of Medicine program is designed to educate these leaders in the medical field.

Our academic programs are offered in state-of-the-art medical facilities, and our students live and learn in an environment which is aesthetically pleasing, academically stimulating, and culturally enriching. While we take seriously our role in preparing students for medical careers, we also recognize that university is more than just classrooms and coursework. As such, we encourage students to participate in athletic and cultural events on campus as well. Indeed, there is something to fit the unique interests and abilities of every student at Osh International Medical University.

We are committed to building a community that is devoted to student success and values individual learning, growth, and service. It underscores our core values of honesty and integrity; respect for diversity; engagement in the community; and a commitment to reason, promoting peace, open-mindedness, and globalization.

It is a true privilege to lead a medical university that is a definite excitement each day! I look forward to helping our students tell their own unique stories.”

*Rector with International Students*

## About Osh International University (OIMU)

Osh International Medical University (OSHIMU) is a young, dynamic, and a progressive higher education institution of the Kyrgyz Republic, licensed and accredited by Ministry of Education & Science, Ministry of Public Health of the Kyrgyz Republic. Osh International Medical University (OSHIMU) is listed with World Directory of Medical Schools (formerly called WHO directory) managed by World Federation for Medical Education (WFME) and Foundation for Advancement in International Medical Education & Research (FAIMER).

Osh International Medical University (OSHIMU) is committed to a cozy learning community in which the distinguished academic and administrative staff focus on the educational and developmental needs of the students. We proudly declare to be a student-oriented Medical University. We are determined to create a unique Medical higher education institution with commitment to excellence.

Accreditation

## Doctor of Medicine

General medicine programme takes five years. The first two years are spent learning theoretical and pre-clinical subjects; the other years of the course focus on clinical subjects. The programme incorporates the classical teaching model in order to develop a firm foundation in basic sciences before entering the clinical field.

Students get the opportunity to practice in state hospitals of Osh city and benefit from early interaction with patients through visits to general practices. The study follows recommended study plans. These plans are based on the field's accreditation, but their content and structure are evaluated so as to reflect progress in knowledge as well as experiences and views of teachers and students. To achieve the required number of credits, students have to register not only for mandatory but also for facultative subjects.

Facultative, i.e. optional, subjects are regularly analyzed and modified. Their requirements are also re-assessed. Students can pass facultative subjects only if they meet certain concrete theoretical and practical requirements. Osh International Medical University follows the Bologna process declaration and has adopted the European Credit Transfer and Accumulation System (ECTS). The Doctor of Medicine (MBBS) programme corresponds to EU standards and professional requirements set for doctors.

## Integrated Learning

The integrated program of medical studies in English has been modernized with certain content, methodological approaches, and educational strategies that characterize Osh International Medical University as a reformed medical university in Central Asia and around the world.

In teaching, contemporary and innovative methodological approaches are applied: student-oriented teaching, problem-based learning (PBL), and teaching in small groups. The horizontal and vertical integration of knowledge, skills, and attitudes is performed through the subject "Clinical Rotations" when the student has the possibility to stay in health institutions/hospitals. In this way, students are able to learn about the health system.

## Internationally Recognized

Osh International Medical University is accredited by national and international accreditation agencies and is listed in the World Directory of Medical Schools.

Graduates from Osh IMU are eligible to take licensing exams in their home countries and subsequently practice medicine. Degrees are internationally accredited and accepted worldwide.

## High-Tech Laboratories

Osh International Medical University is equipped with high-tech laboratories designed to enhance practical medical learning. Students get hands-on experience using modern equipment, helping them understand concepts more effectively. The labs are regularly updated to match international medical education standards. From anatomy to pathology, every department is supported with advanced lab facilities. This strong practical exposure supports FMGE preparation and builds clinical confidence.

At Osh IMU, high-tech labs play a key role in shaping skilled and competent future doctors. Graduates have opportunities to practice worldwide after clearing the required licensing exams in their respective countries.

## Innovative and Active Teaching

The curriculum is enhanced by a wide variety of active learning methods based on a student-centered approach, including problem-based learning, case method, concept maps, simulated patients, and training in hospital wards.

# Clinical Experience

Direct clinical experience is supported by a solid tutoring system and starts in your second year, which gives you considerable practical experience.

Osh International Medical University prepares its students to thrive in the clinical and research areas in Kyrgyz Republic or overseas. Osh International Medical University is affiliated with State hospitals of Osh city for clinical training of its students.

## Provide FMGE Coaching to Indian Students

University regularly Invite Top Well-known Faculty from India to Provide the coaching as per the FMGE guidelines and curriculum to Indian students, so that students after completing the degree they can easily clear the FMGE and start practice in India.

# Students Life

Student life at Osh International Medical University (Osh IMU) is a perfect blend of fun and academic excellence. The university organizes vibrant festival celebrations, cultural events, concerts, and talent shows that provide refreshing breaks from studies. Freshers' parties and annual fests create unforgettable memories, fostering friendship, creativity, and a lively campus atmosphere.

## Kyrgyz Republic

Kyrgyzstan is a country in Central Asia, a landlocked country with mountainous terrain. It is bordered by Kazakhstan to the north, Uzbekistan to the west and southwest, Tajikistan to the southwest and China to the east. Major cities are Bishkek, Osh and Jalal-Abad.

Kyrgyzstan has been at the crossroads of several great civilizations as part of the Silk Road and other commercial and cultural routes. Kyrgyzstan is a member of the Commonwealth of Independent States, the Eurasian Economic Union, the Collective Security Treaty Organization, the Shanghai Cooperation Organisation, the Organisation of Islamic Cooperation, the Turkic Council.

The Türksy community and the United Nations. The mountainous region of the Tian Shan covers over 80% of the country (Kyrgyzstan is occasionally referred to as "the Switzerland of Central Asia", as a result), with the remainder made up of valleys and basins.

## Interesting facts about Kyrgyzstan:

### Land of Mountains

Over 90% of Kyrgyzstan is covered by mountains, mainly the Tien Shan range.

### Beautiful Nature

The country is famous for lakes like Issyk-Kul, one of the largest alpine lakes in the world.

### Peaceful Country

Kyrgyzstan is known for its safe and peaceful environment for students and tourists.

### Friendly People

Locals are warm, welcoming, and respectful toward international students.

### Affordable Living

Cost of living is relatively low compared to many countries, making it budget-friendly for students.

### Education Hub for MBBS

Many international students, especially from India, come here for medical studies.

### Clean Air & Environment

Due to mountains and low industrialization, the air is fresh and clean.

### Strategic Location

Located in Central Asia, bordered by Kazakhstan, China, Uzbekistan, and Tajikistan.

Osh International Medical University offers expert-led FMGE/NEXT coaching with experienced faculty, personalized teaching, and comprehensive study materials to help medical graduates succeed.

# Infrastructure

At OSHIMU, the infrastructure offers a perfect blend of modern facilities, advanced technology, and a comfortable learning environment. Along with well-equipped classrooms, laboratories, and campus amenities, students experience a supportive atmosphere that enhances both academic excellence and overall development.

# Hospital Practice

We ensure strong practical knowledge among our students by integrating real-world clinical exposure into their medical journey. To achieve this, we have collaborated with reputed Indian hospitals, allowing students to gain hands-on experience in real clinical settings. This collaboration bridges the gap between theoretical learning and practical application, helping students build confidence, clinical skills, and patient-handling expertise from an early stage.

# Awareness Seminars

OSHIMU

At Osh International Medical University (Osh IMU), seminars, awareness camps, and World Health Organization (WHO) Health Day celebrations are regularly organized to promote medical knowledge and social responsibility among students. These events focus on important global health issues such as hygiene, disease prevention, mental health, and community well-being. Students actively participate in health campaigns, medical check-up camps, and educational programs, gaining practical experience and strengthening their commitment to public health. Such initiatives help shape compassionate, skilled, and socially responsible future doctors.

# Students Testimonials

Garima Nirmalkar

Choosing Osh IMU was the best decision for my medical career, especially with its strong FMGE-focused preparation. The English-medium teaching and support from Indian faculty make learning smooth and effective. With good infrastructure and Indian food available, it truly feels like a home away from home.

Nadeem Sadia

Osh IMU provides a comfortable and supportive learning environment. The focus on FMGE preparation helps us stay career-ready. Availability of Indian food and caring faculty make life here easy and enjoyable.

Utkarsh Arjun  
Chavhan

Being from Maharashtra, Osh IMU feels like a home away from home with Indian food and a comfortable environment. The university's FMGE-focused preparation and English-medium teaching help me stay confident in my studies. Supportive Indian faculty and modern infrastructure make learning smooth and effective.

Richa Ojha

At Osh IMU, I feel very safe and secure as a girl student, with 24/7 hostel security and a disciplined campus environment. The university provides separate hostels, wardens, and a supportive atmosphere that ensures peace of mind. Along with strong FMGE preparation and Indian facilities, it truly offers a safe and comfortable place to study.

# Students Testimonials

Omkar Shyam Kanote

Osh IMU provides strong academic guidance focused on FMGE success. The modern infrastructure and practical exposure help build real medical skills. Having Indian faculty here makes understanding concepts much easier.

Robinson Ashish

Studying at Osh IMU has been a great decision for my medical career. The university provides strong FMGE-focused preparation along with English-medium teaching, making concepts easy to understand. With supportive Indian faculty, modern infrastructure, and Indian food facilities, I feel comfortable and confident in my journey.

Mahajan Aditya  
Dhondiba

Studying at Osh IMU has been a valuable experience with strong focus on FMGE preparation. The English-medium teaching and support from Indian faculty make learning clear and effective. With modern infrastructure and availability of Indian food, the environment is comfortable and student-friendly.

Lokesh Ishi

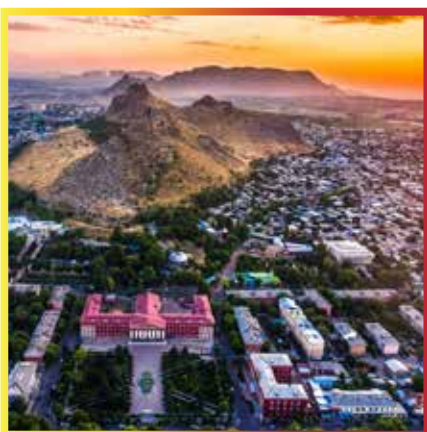

Studying at Osh IMU has been a great experience with a strong focus on FMGE preparation. The English-medium teaching and guidance from Indian faculty make learning easy and effective. With a safe environment, modern infrastructure, and Indian food facilities, I feel comfortable and confident in my medical journey.

## Welcome to Osh

Osh has been a student city, a centre of education, science and technology for the last one thousand years. Osh, a mountainous city located in the heart of the historically famous Fergana valley. Second largest city in Kyrgyzstan. Osh, is administrative centre of the southern Kyrgyzstan, Southern capital of Kyrgyzstan and capital of the Osh region. There are a lot of places for refreshment activities, a sports stadium, sports centres, swimming pools, billiard clubs, winter sports centre with skiing tracks and other winter sports, a number of cinemas with latest English, Russian and Indian movies. Spare time can be spent in restaurants, drama theatres, concerts of famous Russian and Kyrgyz singers are often held at concert halls of the city.

Osh is a welcoming city for international students, known for its friendly and peaceful environment. The people are warm, supportive, and make students feel at home. With a safe atmosphere and vibrant culture, Osh offers a comfortable place to study and live. It is truly an ideal destination for students from around the world.

# Day at Osh IMU

A day at Osh International Medical University begins with interactive classes and practical learning sessions guided by experienced faculty. Students engage in lectures, lab work, and clinical exposure, building strong medical knowledge and skills. Breaks are spent in cafeterias or study areas, followed by group discussions and self-study. The day ends with a balance of academics, relaxation, and student activities, creating a productive and enjoyable routine.

Welcome to the Osh International Medical University global network!

# OSH INTERNATIONAL MEDICAL UNIVERSITY

Osh International Medical University welcome international students from all over the world to be a part of the OSHIMU family. Osh International Medical University is committed to an easy learning community in which the distinguished academic and administrative staff focus on the educational and developmental needs of the students.

Hence, osh international medical university proudly declare to be student-oriented Medical University. Moreover, we are determined to create a unique medical higher education institution with a commitment to excellence. We are very proud of our innovative medical educational set forth, which we hope will join the International Community in training scientifically expert and clinically competent physicians who are also inspired with the best and most compassionate aspects of Eurasian and international medicine.
